

EXPRESSIONS OF JUNIPER

#1 TASTE OF SOUTH AUSTRALIA \$75

We may be biased but we believe the best gin in the world comes from South Australia and according to SA Tourism, gin is the word on everybody's lips - they've even compiled a 'Great South Australian Gin Guide'! With this expression, we will select five gins from across our great state, showcasing different regions; the only travelling you'll need to do is take a seat and let the journey unfold...

#2 HIGH & DRY AROUND THE WORLD \$75

London Dry may be a classic but believe us, its not dictated to by place.

Our five gin selections from around the world will prove London Dry is a "style" to be reckoned with.

As you sip, imagine a classic martini or gimlet. You decide what goes best with your G&T by experimenting with garnishes and a range of tonics.

#3 WHERE'D I PARK ME SHIP \$100

The best of our seafaring world, after five of these babies, your ship could be anywhere! You guessed it, this style is Navy strength and we've got the British to thank for it. Did you know gin was only permitted onboard if it passed the simple test of making sure the gunpowder would still ignite should the alcoholic spirit be accidentally spilled whilst being slurped! That's a whopping 57% + ABV... you're bound to lose ya ship so we recommend arranging a designated driver or catching a taxi home instead...

#4 SWEET & INNOCENT \$85

Created for the sweet-toothed and innocent...

Think luscious tropical fruits and berries tempered with hints of crisp citrus and spice.

In some instances, we'd even go as far as saying wicked dark chocolate... prepare to be corrupted!

#5 TAKE ON FOR THE TEAM \$85

Don't ask - just drink! It's unplanned, spontaneous and just seems to happen.

You'll have to trust us with this one. Five great gins of our choice... Are you game?

#6 THE RARE & UNIQUE \$100

There's just some things you have to experience in person.

Step outside the box and experiment with the rare and unique... think smoked, hemp, mezcal, coriander, seaweed, sugar kelp and nettles to name a few. Where in the world will our selection of five take you?

#7 WANNA GET GRAINED & TOASTED \$95

Span the continents and let us take you back to the beginning... well, almost.

Think distilled, malted, spirit, botanicals and barrel ageing. This expression is a cross between a whisk(e)y and a gin. Tip: barrel aged gins add depth to cocktails and make great sippers. They also date back to the 18th and early 19th centuries when oak was the preferred way to ship and store spirits.

#8 FULL HOUSE \$75

It's a little like poker, five of a kind and everyone's a winner...

Take a seat, as you visit five Australian Capital Cities without leaving the picturesque Barossa.

The Australian Distilling Co. have captured the unique essence of Adelaide, Brisbane, Melbourne, Perth and Sydney. What's your favourite?

#9 KEEPING IT LOCAL \$70

Showcasing provenance and full of flavour, if artisan and small batch gets you excited then this South Australian expression is for you. So... Gin is the new kid on the block. Hand-crafted; filled, labelled and waxed, it doesn't get much more hands on than this. So... sit back, unwind and enjoy something truly special.
